Supply chain information

1. 硅料

Polysilicon

总产能 230,000 吨，生产基地位于四川省，内蒙古，云南；

The total production capacity is 230000 tons, and the production base is located in Sichuan Province, Inner Mongolia and Yunnan;

2. 硅片

Wafer

总产能 15GW，生产基地位于四川省；

The total production capacity is 15GW, and the production base is located in Sichuan Province;

3. 晶硅电池片

Solar cell

总产能 60GW，生产基地位于安徽省，四川省；

The total production capacity is 60GW, and the production base is located in Anhui Province and Sichuan Province;

4. 叠瓦组件

Shingled module

总产能 7.2GW，生产基地位于安徽省；

The total production capacity is 7.2GW, and the production base is located in Anhui Province ;
